THE CENTRAL RAIL ROAD.

The various contradictory rumors concerning the fate of the bill introduced by the Hon. Wm. S. Ashe, the Senator from this County, to establish a Rail Road from Goldsborough to the extreme Western part of the State, with liberal appropriations for various other sections of the State, and which have alternately filled the public with hope and fear, have at length assumed a definite and authentic shape. We now announce its success in both branches of our Legislature. The State is to subscribe two millions of dollars to the work, and individuals are required to make up one million. The bill had previously passed the House, as stated in our last paper, and it has since passed the Senate, by the casting vote of the Speaker, Hon. CALTIN GRAVES, the Democratic member from Caswell.

Thus has been achieved the passage of measure, the most important, by far, to the interests of the whole State, which has been, or brobably will be, for many years, proposed While to the influence of Democratic members may fairly be ascribed its introduction, and the vote which secured its final passage, it is peculiarly gratifying to state that the result is attributable in no small degree to the exertions of leading men in both parties. Dobbin and Stanly in the House, Ashe and Woodfin in the Senate, will share with each other the nalize the beginning of the new road at this honor of being its advocates.

But while such is the case, no little credit seems particularly due to our own distinguished Senator, who after, and notwithstanding the battle of Buena Vista. It is to be stipulathe decisive defeat of another scheme, introduced under the highest official sanction, and when the friends of Internal Improvement had already in contemplation the propriety of a called session, succeeded so admirably by this vent should not be suffered to pass in silence. bill in reconciling the views of members, and There ought to be a public celebration in its by judicious modifications and liberality, applied to various sections, brought them to join at last for the good of the whole.

The people of the West have now, it is hoposition of the East towards them. In fact, LARD, for himself, and Mr. WILLIAM WILSON such seems to have been the cause for the feeling evinced in the passage of the bill securing relief to the Wilmington & Raleigh Road.

These measures promise the dawn of a new era to North Carolina. The people seem to be awaking at last to a sense of the necessi ties of their position, and their representatives are taking advantage of it for the per fection of a general system of Internal Improvement, commensurate with the wants and requirements of the State

THE LEGISLATURE.

This body adjourned on Monday last, after a session of 71 days, having passed 29 public acts, and 128 private acts, besides a number of resolutions. &c.

We had the pleasure on Tuesday of taking by the hand our worthy Commoner, N. N. Nixon, Esq. Mr. N. looks remarkably well after so long and laborious a session as that just concluded, and he will of course now soon recover all his accustomed health and vivacity. As one of our immediate representatives, we are pleased that the opportunity has been so often afforded him of rendering various and important services in the Legislature, and particularly in the cause of Internal Improvefirm, judicious, and consistent advocate.
